## Disease Lurks in every possible spot

There is only one means of combating disease. That is at the source, by destroying the germs. A reliable disinfectant should be used about the stables, out buildings, hen houses, hog houses, in cess-pools and about the bath room, sinks, etc.

No. 6 Disinfectant is best by test. It is six times as powerful as carbolic acid. It is non-poisonous which makes it safe. Diluted with water as directed, it is economical and very efficient.

4 oz. Bottles, 25c.  
16 oz. Bottles, 50c.

## AMONG THE FARMERS.

Beginning the Day.

The wife speaks:  
When I got up to start the day  
I found the milk pail empty.  
I went to the barn and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The husband speaks:  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The wife speaks:  
When I got up to start the day  
I found the milk pail empty.  
I went to the barn and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The husband speaks:  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The wife speaks:  
When I got up to start the day  
I found the milk pail empty.  
I went to the barn and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The husband speaks:  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

the cow in the stall.  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

## Norway Two Cents a Ton.

A. B. ROSS GIVEN HIS EXPERIENCE IN INNOVATING LEGUMES.

I started with the inoculation of clover in 1907. I would get a three-ounce bottle of "culture" from the Department of Agriculture at Washington, and prepare a gallon of culture from this "starter". I put two table-spoonsful of white sugar in a gallon of water that had been boiled for five minutes and then thoroughly cooled. When the sugar dissolved, the "culture" was put in, and the crock, covered with muslin, was placed in a dark, cool place to ripen. When it began to show just a little cloudy, as it was now, I took it out and added a quart of water. I then took it out and added a quart of water. I then took it out and added a quart of water.

The wife speaks:  
When I got up to start the day  
I found the milk pail empty.  
I went to the barn and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The husband speaks:  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The wife speaks:  
When I got up to start the day  
I found the milk pail empty.  
I went to the barn and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.

The husband speaks:  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.  
I went to the stall and found  
the cow in the stall.
